UNIVERSITY

JAIN (Deemed-to-be University)

JAIN (Deemed-to-be University), based in Bengaluru, is a leading institution committed to academic excellence, innovation and holistic development. The University offers diverse programs across engineering, management, commerce, sciences, humanities, design and other disciplines. With a strong emphasis on research, entrepreneurship, sports and industry-focused education, it prepares students for evolving global opportunities. Its vibrant campuses bring together learners and faculty from diverse cultural and academic backgrounds. Through classroom, online and open-distance learning, JAIN provides accessible and future-ready education that empowers students to make a meaningful impact.

PROGRAM

MA Economics

Highlights

- Curriculum themes such as microeconomics, macroeconomics, Indian economy, and public policy make the program relevant to economics, policy, markets, and development thinking and its practical use.

- Helps learners observe how classroom concepts appear in markets, households, firms, policy choices, and development questions and everyday organizational tasks.

- Builds confidence in time management, communication, and applied problem-solving alongside formal study.

- Useful for learners who want both a recognized academic pathway and early practical orientation in policy, research, analytics, banking, public administration, and development roles, including areas such as Economist, Research Economist, and Public Policy Consultant, with added focus on career self-awareness.

Learning outcomes

- Within MA Economics from JAIN (Deemed-to-be University), interpret key ideas in economics, policy, markets, and development thinking and relate them to markets, households, firms, policy choices, and development questions.
- Solve structured problems involving economic interpretation, policy analysis, and resource-allocation challenges through appropriate concepts and methods.
- Assess economic decisions using data, theory, incentives, and social context with attention to analytical rigour, evidence, and balanced interpretation.
- Communicate insights through policy notes, economic analyses, and research-based summaries suited to the discipline.
- Observe how microeconomics, macroeconomics, Indian economy, and public policy appear in practical settings and use that exposure to build employability awareness, while strengthening career self-awareness.
