JAIN (Deemed-to-be University)

JAIN (Deemed-to-be University), based in Bengaluru, is a leading institution committed to academic excellence, innovation and holistic development. The University offers diverse programs across engineering, management, commerce, sciences, humanities, design and other disciplines. With a strong emphasis on research, entrepreneurship, sports and industry-focused education, it prepares students for evolving global opportunities. Its vibrant campuses bring together learners and faculty from diverse cultural and academic backgrounds. Through classroom, online and open-distance learning, JAIN provides accessible and future-ready education that empowers students to make a meaningful impact.

B.Com (Hons.) Logistics and Supply Chain Management

Highlights

- ◆ A balanced learning format that brings logistics, shipping, supply chain, and operations management within reach for learners with varied schedules.
- ◆ Course content touches MANAGING GREEN OPERATIONS, STRATEGIC SUPPLY CHAIN MANAGEMENT, supply chain planning, and logistics operations, allowing students to connect fundamentals with practical relevance.
- ◆ Designed to build confidence gradually, from concept clarity to more independent academic thinking.
- ◆ Includes opportunities to reflect on movement of goods, vendor networks, warehouse flows, and service commitments through assignments, cases, or application-led tasks.
- ◆ Helps learners prepare for future education, professional transition, or stronger domain understanding in logistics, shipping, procurement, warehouse operations, and supply chain roles, including areas such as Supply Chain Analyst, Logistics Planner, and Supply Chain Manager, with added focus on learner independence.

Learning outcomes

- ◆ Within B.Com (Hons) (Logistics & Supply Chain Management) from JAIN (Deemed-to-be University), map important concepts in logistics, shipping, supply chain, and operations management to real or case-based situations involving movement of goods, vendor networks, warehouse flows, and service commitments.
- ◆ Apply analytical thinking to manage cost, delivery, inventory, and coordination challenges across supply chains in a disciplined way.
- ◆ Evaluate information before making conclusions about operations choices involving efficiency, resilience, service levels, and risk.
- ◆ Design or present supply chain maps, logistics plans, and operations improvement notes that show both knowledge and practical relevance.
- ◆ Grow confidence for academic advancement and career exploration across logistics, shipping, procurement, warehouse operations, and supply chain roles, including areas such as Supply Chain Analyst, Logistics Planner, and Supply Chain Manager, while strengthening learner independence.

Eligibility Criteria

The minimum qualification required to apply is a pass in the 10+2 examination in Science or Commerce from PUC / ISC / CBSE or an equivalent board. A course recognized as equivalent thereto by the University.
